PROFESSIONAL SUMMARY

Cybersecurity professional with an M.Tech in Cybersecurity and experience in SOC operations, VAPT, DFIR, and Red Teaming. Certified Red Team Analyst (CRTA) skilled in threat monitoring, vulnerability assessment, log analysis and security analysis using industry-standard tools.

TECHNICAL SKILLS

Security Operations : SOC Operations, SIEM, Threat Detection, Incident Response, Log Analysis, VAPT
Networking : TCP/IP, DNS, HTTP/HTTPS, Network Security
Security Tools : Kali Linux, Nmap, Wireshark, Burp Suite, Metasploit, Wazuh, Splunk
Security Concepts : OWASP Top 10, Vulnerability Assessment, Digital Forensics, Incident Investigation
Red Teaming : Active Directory Enumeration, Privilege Escalation, Lateral Movement, Web Exploitation

EXPERIENCE

SOC Analyst Intern — CyArt Tech | May 2025 – Nov 2025

- Used in-house SOC tool for security alert monitoring and threat analysis.
- Supported testing and operations of custom cybersecurity platform.
- Analyzed system and network logs to identify potential security threats.

Cyber Security & Digital Forensics Intern — Cyber Secured India | Apr 2025 – Jun 2025

- Applied cybersecurity tools and techniques in practical and simulated environments.
- Gained knowledge of network security, vulnerability identification, and mitigation.

Security Analyst (VAPT / SOC) Intern - TechDefence Labs Pvt. Ltd. | Dec 2023 – Mar 2024

- Conducted Vulnerability Assessment and Penetration Testing (VAPT) on web applications.
- Monitored security alerts and analyzed logs in SOC environment.
- Identified vulnerabilities and supported incident investigation and reporting.

RESEARCH & PUBLICATIONS

Hybrid Malware Analysis using Static and Dynamic Techniques with Machine Learning

International Journal of Scientific Research in Science, Engineering and Technology (IJSRSET), Vol. 13, Issue 1, Jan–Feb 2026

DOI: <https://doi.org/10.32628/IJSRSET2613101>

Oral Presentation: SICARSTM-2026, Sigma University | April 2026

PROJECTS

SOC Home Lab Setup & Security Monitoring

- Built a personal SOC home lab using Kali Linux and virtual machines.
- Performed log and network traffic analysis for basic incident investigation.

Red Team Lab Experience (CRTA)

- Performed reconnaissance and web enumeration in a simulated lab environment.
- Identified vulnerabilities and executed privilege escalation techniques.
- Practiced internal pivoting and basic Active Directory enumeration.
